

○暑寒別岳高地採集植物目錄(補遺)(豊国秀夫) Hideo TOYOKUNI: A list of alpine plants collected on Mt. Shokambetsu, Hokkaido (Addition)."

I published in 1951 the first list of the plants collected from the alpine region of Mt. Shokambetsu. After that, fortunately, I had an opportunity to visit the same region again in 1952. In this paper, I made the correction and the addition based on new specimens and 34 species and 4 varieties were added to my former list.

I must express my sincere thanks to Dr. M. Tatewaki, for the identification of the critical species. I am also indebted to Mr. Kawakami, superintendent of the Rumoi Forest Office, and Mr. Keiji Takahashi of the Asahikawa Regional Forest Office, for their kind assistance through my mountain climbing. Last, but not least, I wish to thank Mr. Yukio Ooba who had good enough to share with me the hardship of my plants collecting mountaineering.

77; Suppl. 1) *Athyrium melanolepis* Christ. "Miyama-meshida".

78; " 2) *Dryopteris austriaca* Woynar, Schinz et Thellung. "Shirane-warabi".

79; " 3) *Phegopteris polypodioides* Fée. "Miyama-warabi".

80; " 4) *Spicantopsis niponica* Nakai var. *japonica* Nakai. "Shishiga-shira".

2'; " *Lycopodium annotinum* var. *angustatum* Takeda. "Sugi-kazura".

81; " 5) *Taxus cuspidata* Siebold et Zuccarini. "Ichii".

82; " 6) *Salix Hultenii* Floderus var. *angustifolia* Kimura. "Yezo-yama-nekoyanagi".

83; " 7) *S. Reimii* Franchet et Savatier. "Miyama-yanagi".

84; " 8) ? *S. yezoalpina* Koidzumi. "Yezo-no-takane-yanagi?".

85; " 9) *Coptis trifolia* Salisbury. "Mitsuba-ôren".

86; " 10) *Ranunculus subcorymbosus* Komarov. "Kenashi-miyamakim-pôge".

87; " 11) *Glaucidium palmatum* Siebold et Zuccarini. "Shirane-aoi".

88; " 12) *Hydrangea paniculata* Siebold var. *praecox* Rehder. "Yezo-noriutsugi".

89; " 13) *Saxifraga fusca* Maximowicz. "Kurokumo-sô".

90; " 14) *Spiraea Aemiliana* Schneider. "Yezo-marubashimotsuke".

19'; " *Sorbus sambucifolia* Roemer var. *pseudogracilis* Schneider. "Takane-nanakamado".

- 91; " 15) *S. Matsumurana* Koehne. "Urajiro-nanakamado."
 92; " 16) *Acomastylis calthifolia* F. Bolle var. *nipponica* Hara. "Miyama-daikonsô."

Trifolium repens Linnaeus. "Shiro-tsumekusa." (Secondary element).

- 28'; " *Acer ukurunduense* Trautvetter et Meyer. "Ogara-bana."
 93; " 17) *A. Tschonoskii* Maximowicz. "Mine-kaede."
 94; " 18) *Viola brevistipulata* W. Becker var. *laciniata* W. Becker. "Fugire-kisumire."

The leaves of this variety on Mt. Shokambetsu are more deeply laciniated at the margin and more cordate at the base than those on Mt. Ashibetsu (Ashupet-nupri in Aino), and are closely related to *Viola alliariifolia* Nakai.

- 95; " 19) *V. Selkirkii* Pursh. "Miyama-sumire."

Chamaenelion angustifolium Scopoli. "Yanagi-ran." (Secondary element).

- 33'; " *Peucedanum multivittatum* Maximowicz var. *dissectum* Takeda. "Kireha-hakusanbôfû."

- 96; " 20) *Fauria crista-galli* Makino. "Iwa-ichô."

- 97; " 21) *Galium kamschatcicum* Steller var. *acutifolium* Hara. "Ooba-no-yotsubamugura."

- 98; " 22) *Erigeron Thunbergii* Gray subsp. *glabratus* Hara. "Miyama-azumagiku."

- 99; " 23) *Agrostis flaccida* Hackel. "Miyama-nukabo."

- 100; " 24) *Carex hakonensis* Franchet et Savatier. "Ko-harisuge."

- 101; " 25) *C. puberula* Boott. "Ito-aosuge."

- 102; " 26) *C. urostachys* Franchet. "Iwaki-suge."

- 103; " 27) *Juncus decipiens* Nakai var. *gracilis* Nakai. "Hime-i."

- 104; " 28) *Luzula oligantha* G. Samuelsson. "Takane-suzumenohie."

- 105; " 29) *Clintonia udensis* Trautvetter et Meyer. "Tsubame-omoto."

- 106; " 30) *Maianthemum dilatatum* Nelson et Macbride. "Maizuru-sô."

- 107; " 31) *Streptopus amplexifolius* De Candolle var. *papillatus* Ohwi. "Ooba-takeshimaran."

- 108; " 32) *S. japonicus* Ohwi. "Takeshima-ran."

- 109; " 33) *Trillium* sp.

- 75; " *Veratrum alpestre* Nakai !.

- 110; " 34) *Platanthera tipuloides* Lindley. "Hosoba-no-kisochidori."
